**Compliance of products from Mondi SCP a.s., Ružomberok according to the requirements of the Nordic Swan**

To Whom it May Concern:

Since we have been asked to inform about the compliance of our products from Mondi SCP a.s. with the requirements of the Nordic Swan Ecolabel, we want to inform, that a detailed evaluation of the compliance would need at least several weeks or even months, because a lot of confirmations from suppliers, e.g. related to the use of chemicals would be needed.

However we can confirm that

- a) Our mill in Slovakia operates in compliance with the requirements of the Nordic Swan related to all kinds of emissions into air and water, waste treatment, usage of chemicals and energy efficiency.
- b) Most of the pulp used in paper products is coming from integrated pulp mill. Pulp production is in compliance with Nordic Swan requirements according to data, that are available. BAT Technologies are implemented in Pulp mill.
- c) Requirements related to the origin of wood are met and compliance is assured through FSC CoC and PEFC CoC Certification.

Mondi SCP, a. s.
