

Where possible, anytime the officials are performing a review through the IRS, the unaltered footage coming directly from the IRS monitor may be shown on the live broadcast for the international feed, as per a EuroLeague Producer and game director decision.

In such situation, no other replays feeds coming from any other source different than the cameras used in the IRS may be displayed prior to, during, or immediately after the officials' review.

5.20.1. Basic Principles

Procedures for All Replay Reviews

- a) All replay reviews will be conducted by the officials after gathering as much information as possible from the unified scorers and the Instant Replay System (IRS) monitor. The crew chief will make the final decision.
- b) Only the officials and the IRS operator (IRSO), who must understand and speak English, will be present in the area where the IRS is installed. The crew chief will order any other person not complying with these requirements to leave the area.
- c) The call made by the officials during play will always be shown prior to reviewing the play, and this will only be changed when the replay provides the officials with clear and conclusive visual evidence to do so.

5.20.2. 00:00 Game Clock

Instant replay can be referred to in the following situations:

- 5.20.2.1. A field goal made with no time remaining on the game clock (00:00) at the end of any period or any extra period. The officials are authorised to determine the following issues **only**:
 - a) Whether the time on the game clock expired before the ball left the shooter's hands.
 - b) If the shot was released on time, whether the successful field goal scored was a two-point or three-point field goal.
 - c) If the shot was released on time, whether the shooter committed an out-of-bounds violation.
