

SpermFreeze SSP

Medium for freezing human spermatozoa

PRODUCT

SpermFreeze SSP is a single step freezing medium for use with human sperm cells. The medium is clear (does not contain any milk, egg yolk) and can be used directly from the bottle. SpermFreeze SSP requires 1mL of medium for each 1mL of semen. We also offer a less concentrated SpermFreeze which allows 1mL of semen to be frozen with 0.7mL of SpermFreeze.

2.2 dalis

PRODUCT SPECIFICATIONS

pH (ambient air)	7.20 - 7.50 (release criteria: 7.20-7.60)
Sterility	SAL 10 ⁻⁴
Endotoxin	< 0.25 EU/ml
Sperm survival test	> 80% motility recovery after 4h exposure
Water	All FertiPro media are manufactured using ultra purified water (Ph Eur)
Ingredients	Where applicable Ph Eur or USP grade raw materials are used
In-use stability	Can be used safely up to 7 days after opening, when sterile conditions are maintained and the products are stored at 2-8°C

STORAGE

+2°C +8°C
Store between 2-8°C

Keep away from (sun)light

18 months from date of manufacture
