Documents

Ambion Molecular biology grade, 0.5 M EDTA, pH 8.0 solution is supplied in one bottle containing 100 mL. The solution is certified RNase-free, economical, and ready-to-use. Due to the ubiquitous presence of RNases, manufacturing products for use with RNA is especially challenging. Ambion's nuclease-free reagents and buffers are manufactured in facilities specifically designed to prevent the introduction of nucleases. Highly sensitive RNase assays are performed at several different stages of the manufacturing process to ensure the highest quality. These reagents are rigorously tested for contaminating nonspecific endonuclease, exonuclease, and RNase activity.

For Research Use Only. Not for use in diagnostic procedures.

## Specifications

<b>Chemical Name or Material</b>	EDTA
<b>Concentration</b>	0.5 M
<b>Packaging Type</b>	Bottle
<b>pH</b>	8
<b>Product Line</b>	Ambion™
<b>Purity</b>	Molecular Biology Grade
<b>Quantity</b>	100 mL
<b>Shipping Condition</b>	Room Temperature
<b>Form</b>	Liquid
<b>Unit Size</b>	100 mL

## Contents & Storage

Store at room temperature.
