Plastic slides folder

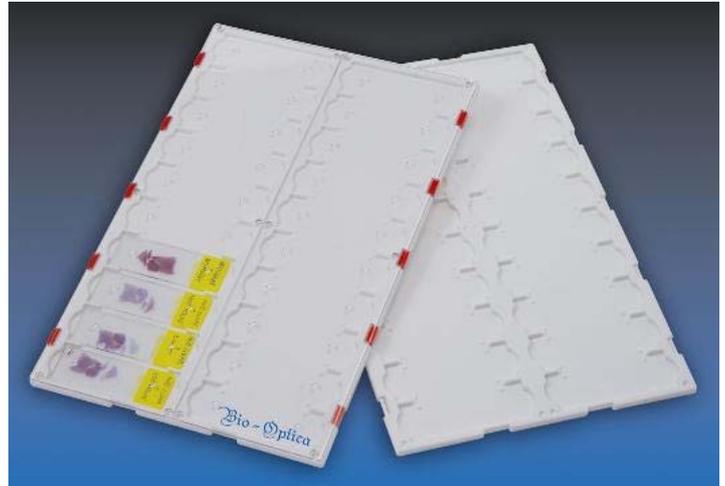

General features

PVC slides folders. Superposable and useful like holds for the series reading.

Code	Dimension (mm)	Capacity
09-57620	292 x 192	20 slides

Bio-Optica Milano S.p.A.

Description

Plastic folder to classify and archive standard slides (76 x 26 mm).

The white colour is used to allow the easily distinguishing of the staining on the slides. It is realized with transparent covers, completely openable (360°).

The product is singularly packed.

Principal features

- Biological state: not sterile;
- Used material: Polyvinylchloride (PVC);
- Permitted temperatures: - 20°C / + 80°C;
- Colour: white;
- Slides dimension (mm): 26 x 76;
- Product validity: 5 years.

PVC is fixable only with ethylene oxide.

The product is appropriated for generic laboratory uses, for containing microscope slides.

The product doesn't request CE mark.

Objektyvinių stiklelių dėklas

Bendrosios savybės

Objektyvinių stiklelių dėklas, baltos spalvos, polivinilchloridinis (PVC), skaidriu paviršiumi su dangteliais.

Kodas	Dimensijos	Talpa
09-57620	292x192 mm	50 stikliukų

Gamintojas: Bio-Optica Milano S.p.A.

Aprašymas

Skirtas standartinių stiklelių (26 x 76 mm) archyvavimui. Objektyvinių stiklelių dėklas, baltos spalvos ir skaidriu paviršiumi, dėl to lengva vertinti stiklelius. Komplekte yra skaidrūs dangteliai, atsidarantys 360° laipsnių kampu.

Kiekvienas dėklas supakuotas atskirai.

Techniniai duomenys

- **Biologinė būklė:** nesterilus;
- **Pagaminimo medžiaga:** polivinilchloridas (PVC);
- **Temperatūros diapazonas:** - 20°C / + 80°C;
- **Spalva:** balta;
- **Stiklelių išmatavimai (mm):** 26 x 76;
- **Galiojimo laikas:** 5 metai.

Produktas yra skirtas laboratorinėms reikmėms, objektyvinių stiklelių laikymui. Produktas nereikalauja CE ženklo.
