Thermo Scientific nuclease-free water is deionized and 0.22 µm membrane-filtered nuclease-free water. It is ideal for all molecular biology applications.

Features

- Free of endo-, exodeoxyribonucleases, ribonucleases, and phosphatases

For Research Use Only. Not for use in diagnostic procedures.

Specifications	
pH	7.6
Grade	Molecular Biology
Packaging	Bottle
Treatment(s)	Not DEPC-Treated
Quantity	30 mL

Frequently asked questions (FAQs)

I would like to order a TaqMan SNP Genotyping Assay. Does the kit include everything I need to perform my experiment or do I need to purchase reagents separately?
