# BRUMABA Operating Chairs and Stools: An Investment in Your Health

For surgeons and healthcare professionals, maintaining an ergonomic sitting posture is essential not only for comfort but also for professional efficiency. Especially during long and demanding procedures, proper ergonomics promote better blood circulation, enhanced concentration, and reduced muscle tension and fatigue.

BRUMABA surgical stools and chairs are designed to adapt flexibly to individual body measurements, serving as an ideal complement to our operating tables. Their ergonomic design promotes a back-friendly posture, minimizing physical strain during surgeries and assisting roles—a sustainable investment in both your personal health and that of your team.

## Your benefits:

- Optimal back support with infinitely adjustable back sections
- Precisely adjustable armrests for optimal support during surgeries and treatments
- Patented ergonomic seat surfaces for consistently secure and comfortable seating
- Individually adjustable seat tilt angle for healthy blood circulation in the legs
- Maintaining a sterile working environment with foot-adjustable seat height

Investing in BRUMABA operating chairs and stools ensures not only comfort but also supports your long-term health and professional performance.

12.2.P. Rankose laikomas skaitmeninis akispūdžio matavimo prietaisas su ekranu

## Your guided view to precise IOP measurements.

Introducing the all-new Reichert® **Tono-Vera® Tonometer** featuring the advanced, patent-pending **ActiView™ Positioning System**, that quickly guides you to the apex of the cornea, giving you confidence in your intraocular pressure (IOP) readings. Tono-Vera automatically measures when aligned, providing more objective and repeatable results.

Tono-Vera utilizes gentle rebound tonometry technology, eliminating the need for topical anesthetic. Designed with the eye care professional in mind, the innovative Tono-Vera System includes a base that efficiently stores and dispenses **Ocu-Dot® Tonometer Probes**.

12.3.P. Matavimui nereikia nujautrinti akies

**Reichert® is technology, tradition, and trust.**

For over 75 years, Reichert has paved the way for continuous advancement in tonometry and glaucoma diagnostics. With the introduction of Tono-Vera, Reichert now offers the most comprehensive line of tonometry solutions.

Tono-Vera Tonometer is brought to you by the people who are passionate about eye care.

## A more objective measurement with ActiView™ Positioning System.

The Tono-Vera ActiView Positioning System features a full color view of the eye combined with intuitive, interactive alignment prompts to guide the user precisely to the apex of the cornea. When proper alignment is achieved Tono-Vera automatically measures, providing a result in as few as three measurements. Intuitive color-coded rings indicate the reliability of the reading.

## Tono-Vera®, innovative and thoughtfully designed.

- Available in two models – Rechargeable or AA Battery. Rechargeable Model means fewer batteries in landfills and a device that is always ready to use. AA Battery Model goes anywhere and allows for a quick and easy battery change with no additional tools required. Rechargeable and AA Battery Packs are interchangeable, providing ultimate flexibility.
- Lightweight, ergonomic, and calibration-free.
- Included multi-purpose Tono-Vera Base docks and charges\* your device while also conveniently storing and dispensing Ocu-Dot Tonometer Probes.
- Innovative FlexiSoft™ Forehead Rest has been designed for easy distance control and patient comfort.
- Bluetooth enabled, allowing for software updates and Electronic Health Record connectivity.
- Ready for the road with the durable and lightweight protective Carry Case.

## Ocu-Dot® Tonometer Probes

Specially designed for Tono-Vera Tonometers, Ocu-Dot Tonometer Probes are single-use, individually packaged for fast and easy loading, and come in boxes of 100 count.

12.9.P. Komplekte: matavimo zondų dėžutė-100 vnt matavimo zondų

12.2.P. Matavimas atliekamas naudojant vienkartinius matavimo zondus

## Instructions for Use (continued)

### Measurement Screen

- 1 ActiView Positioning System Area:** The full-color area on screen where the eye is aligned to the device.
- 2 Battery Indicator:** The battery icon indicates the battery level.
- 3 Alignment Target:** The alignment area, consisting of a circular center target and level indicators.
- 4 Probe Angle Indicator:** Two colored marks (green or yellow) appear on each side of the Alignment Target, indicating the probe angle.
- 5 Number of Measurements:** The dots indicate the measurements required and completed (3+ or 6). An empty white dot indicates a required measurement. A solid blue dot indicates a reliable, completed measurement.
- 6 ActiView Auto Measure Mode:** If AUTO is illuminated, Tono-Vera will automatically measure when properly aligned. If AUTO is grayed out (Manual Measure Mode), then the Manual Measure Button must be pressed to take a measurement. Pressing and holding the blue Manual Measure Button will take continuous measurements.
- 7 OD:** Right eye. The circle will be blue if selected.
- 8 OS:** Left eye. The circle will be blue if selected.
- 9 Menu:** To access the Menu, press the center button beneath the Menu icon. Refer to the Menu section of this manual for details. If an X icon appears where the Menu icon is depicted, measurements have been taken. Press the button beneath the X to clear out all measurements. If Bluetooth is activated and connected, an export icon (up arrow) will appear after measurements are taken. Press the button beneath the arrow to transfer the data to an EMR system.
- 10 Select OD/OS Buttons:** Select OD or OS by pressing the corresponding button.
