

## Stainless reusable biopsy guide

### Product Summary

1. Leapmed **reusable needle guide** offers surgeons different angles for needle insertion. Adjustment of the angle screw allows selection of the desired angle of access and securely locks the guide into position, providing a direct visual path for instruments to follow according to on-screen guidelines. A easy-to-learn quick-release allows easy detachment of the device from the transducer providing physicians increased flexibility during procedures.

- Needle separable from guide.
- Directs instruments according to on-screen biopsy guidelines.
- 3-5 years lifespan.
- Autoclave sterilization, low temperature plasma disinfection, ethylene oxide gas disinfection.

### Product Advantage

- **Angle Type:** Guideline-Angle
- **Available Angle:** /
- 3. • **Tube Type:** **16G,18G** ( Standard Needle Adapter )
- **Needle Type:** 14G, 15G, 20G, 21G, 22G ( Optional )
- 2. • **For Use With:** **GE 4C,4C-A,4C-D,4C-RS**,Samsung CS1-4
