Dear Danute,

My apologies, I may not have been clear in my last email.

1. The test cards are not considered a medical device and do not have MSDS sheets. The test cards are small cards that contain a certain number of tests. Once inputted into iSED, the tests will be loaded and available test units will show on the screen.

\*Please refer to page 26 of the operators manual for instructions for use.

2. The iWASH also does not need an MSDS, please see attached exemption document.

\*Please refer to page 29 of the operators manual, sections 15.4 and 15.5 for instructions for use.

I hope I have given you what you need but please let me know if you need any additional information.

Have a nice day!

Alana

Good morning Alana,

I did not get yet from you the:

1. Description for product, instruction for use for 11205000 Test cards and 11212001 iWash.
2. And MSDS for 11205000 Test cards ?

Thank you a lot,

Regards,
