

### ERGONOMIC WORKING

#### ➤ FEEL THE GRIP

The unique design provides 70% more grip in comparison to previous products due to shape, material, edges and texture.

**The result: less force to achieve a safe grip during use.**

#### ➤ DESIGN MAKES THE DIFFERENCE

Ergonomically designed instruments reduce pressure points and joint stress, so that the risk of related injuries is minimized.

Place of the maximum discomfort / highest surface pressure

Place of maximum comfort / lowest surface pressure
