The **Self·Light®** disposable proctoscope utilises a convenient battery-operated pen light, enabling examinations and minor therapeutic procedures to be performed in a non-specialist out-patients' department, on the ward or at home. **Self·Light®** can also be used with a plug-in light source produced by Sapi Med, if desired. **Self·Light®** proctoscopes are made of transparent plastic material and supplied in individually sealed bags. A free pen-light is included in each box of scopes.

**AVAILABLE IN STERILE VERSION AS WELL.**
