Hortenzijų krūmai 12 vnt. ir varpiniai augalai. 23m²

This topographic map illustrates a construction site with various terrain features and proposed infrastructure. The map includes numerous elevation points (e.g., 187.79, 188.05, 187.66) and contour lines. Key features include:

- Proposed Road:** A road labeled "glzb 300/5" runs diagonally across the site, with a width of 4.00m indicated.
- Proposed Structure:** A large, irregularly shaped structure with a hatched pattern is shown, featuring a central circular area and a rectangular extension. Dimensions of 1.50, 3.50, and R5.00 are noted.
- Existing Features:** A road labeled "glzb 300/4" is visible on the left, and a road labeled "glzb 300/5" is shown at the bottom. A road labeled "glzb 300/6" is also present.
- Topography:** The map shows a mix of terrain with various elevation points and contour lines. A large area of 23m² is marked on the left.
- Other Labels:** "I ETAPAS" and "II ETAPAS" are labeled at the bottom right, indicating different stages of the project. "DARBAI" is labeled at the top left.
