**TECHNICAL SPECIFICATION
SUBSCRIPTION TO CLARIVATE ANALYTICS DATABASES
WEB OF SCIENCE CORE COLLECTION WITH CITATION CONNECTION PACKAGE
AND INCITES BENCHMARKING AND ANALYTICS**

I. Background Information

1. Research Council of Lithuania (hereinafter referred to as the “RCL” or the “Procuring Organization”) wishes to procure the online access to the Licensed Materials of the *Clarivate Analytics* online research databases:

- ***Web of Science Core Collection***
- ***Web of Science Citation Connection Package***
- ***InCites Benchmarking and Analytics***
- ***Custom data***

2. During the validity period of the License Agreement, a contact person of the Procuring Organization on the issues of the Technical Specification, online access and databases administration shall be Gerinta Raguckaitė, Policy Analyst of Research and Higher Education Policy Analysis Unit:

E-mail: gerinta.raguckaite@lmt.lt;

Phone: +370 676 45 756

Address:

Research Council of Lithuania

Gedimino pr. 3, LT-01103 Vilnius,

Lithuania

3. A contact person of the Supplier on the issues related to online access shall be indicated in the Supplier’s Tender. The information about the contact person appointed by the Supplier shall be copied into the Licence Agreement. Contact information of other persons responsible for technical solutions, statistical data and administration may be sent at the e-mail address indicated herein above.

II. Requirements for the scope of services

4. The RCL shall have access to the following Licensed Materials:

4.1. ***InCites Benchmarking & Analytics*** providing a dataset consisting of profiles of institutions, journals, books, proceedings, in the form of graphs and tables, containing data and metrics compiled from three sources: a reputation survey conducted by Clarivate Analytics; demographic and financial information from the institutions; journal and publication and citation information from the Web of Science. The data are compiled in a 35 years dataset and are refreshed twice per year. The data are presented via reports, tiles, and support custom analysis and exploration.

4.2. ***InCites Journal and Highly Cited Data*** provides access to two web products, Journal Citation Reports, and Essential Science Indicators, as part of the Clarivate Analytics research analytics solution InCites. Journal Citation Reports® offers a systematic, objective means to critically evaluate the world's leading journals, with quantifiable, statistical information based on citation data. By compiling articles' cited references, JCR Web helps to measure research influence and impact at the journal and category levels, and shows the relationship between citing and cited journals. Essential Science Indicators categorizes journals from the Web of Science into broad categories, and identifies the most highly and rapidly cited journal publications in each category. Counts of highly cited

publications attributed to researchers, institutions and countries indicate volume and influence of their research activity.

4.3. **Web of Science Core Collection with Citation Connection Package.** The database allows to access Web of Science Primary Collection with Citation Connection Package Solution with the back file including:
