Key selling points

- **Print fast, don't wait**
However demanding your professional printing needs, a Samsung Xpress M2675FN series gives you great results - fast. Save time by printing even complex documents at speeds of up to 26 pages per minute (PPM). With the Cortex-A5 Core, it's up to 25.6% faster than earlier models, making it one of the fastest printers in its class. That means it helps you to work faster, be more flexible and more productive.
- **Give a good impression with great print quality**
Now impressive professional-quality prints are possible for everyone. Your Samsung Xpress M2675F series delivers sharp, clear prints that are sure to make a big impact. Thanks to its 4800 x 600 dpi effective resolution and Rendering Engine for Clean Page (ReCP) technology, you can enjoy higher performance and quality without the need for a bulky larger printer. What's more, quality-boosting features give you more detail, smoother images and clearer text.
- **High-resolution printing**
Even complex images and small text are delivered in fine, detailed prints, thanks to high-resolution print quality up to 4800 x 600 dpi effective.
- **Edge enhancement**
Enjoy clearer text and more vivid images thanks to edge enhancement, which gives them a far more polished and well-defined edge.
- **Produce more types of documents with support for heavy media**
Busy small-business professionals can stay productive by using a variety of paper types with Xpress M2625D. This small yet robust printer can handle up to 220 grams per square meter (gsm) media, which includes paper, labels, cards, envelopes and overhead projector (OHP) transparencies. This flexibility can help small businesses stay adaptable for various business needs. The paper types can be conveniently selected from the multipurpose (MP) tray.
- **Great copying and clear, colorful scanning**
With your Samsung Xpress M2675FN series, superior-quality copies and scans are now a reality. Great performance means fine text and images are sharper, delivering much more legible text and vibrant, smooth images.
- **Enhances thin lines and small text**
Many printers fail to capture thin lines and small text when scanning or copying. Xpress M2675FN include De-Integrated Cavity Effect (De-ICE) technology to help increase the amount of text that is captured, yielding higher-quality prints and scans.
- **Remove halftone patterns**
Xpress M2675FN can remove halftone patterns appeared on the images to produce clear and smooth images, which finally delivers the quality business printing outputs.
- **Print with more paper types for all kinds of uses**
Whatever you need to print, your Samsung Xpress M2675FN series can handle it. The small but robust printer can use a range of media up to 220 grams per square meter (gsm), including paper, labels, cards, envelopes and overhead projector (OHP) transparencies. You can easily select the paper type you need from the multipurpose (MP) tray, so it's convenient as well as flexible.
- **Better for your budget and the planet**
Cut your toner and paper costs with the one-touch eco button. It's optimized, so just a click of the button allows you to easily use N-up and duplex printing, which lets you print multiple document pages on a single sheet and skip wasteful blank pages. With toner save mode, you can also reduce toner use and bring your printing costs down even more.
- **Cut energy and supply consumption**
With easy eco driver, you can make savings of up to 20% on toner and paper as well as reducing your energy usage. It helps you cut down on page elements that use high amounts of toner, such as images and bold type fonts, or lighten text so that less toner is required. You can preview and edit your documents

before printing, to make sure that the output meets your needs in terms of efficiency and also quality. Eco Simulator also shows you the estimated reduction percentage of CO2, electricity, and paper, so you can see the difference for yourself.

- **Cut costs with separated toner system**
With Samsung's separated toner system, the toner cartridge and imaging unit are supplied separately. This means you only need to buy the toner cartridge when it's empty, so the overall cost of running the printer - and the cost per page - is reduced. Installation is also easy, so you can spend less time maintaining your printer as well as less money. You can balance your budget as well as meet all your printing needs.
- **Monitor and manage your printer easily**
Samsung's easy printer manager lets you look after your printer's settings, device status, supply ordering and faxing - all in one place. You can conveniently see error reports and monitor the status of your printer and its supplies, as well as manage settings remotely. It's all provided in one single interface that brings together all your Samsung printer's settings and applications.
