

TB-STAIN COLD KIT

Three-reagent kit

For staining of acid resistant bacteria according to Kinyoun

TB-Stain Cold kit is used for staining according to modified Ziehl-Neelsen

(Kinyoun) method for detection of TB bacteria which does not require heating.

	packaging	product code
• TB-Stain Cold kit	for 100 tests	TBC-100T
• TB-Stain Cold kit	4x100 mL	TBC-K-100
• TB-Stain Cold kit	4x250 mL	TBC-K-250
• TB-Stain Cold kit	4x500 mL	TBC-K-500
Kit contains 4x100 mL:		
• TB Carbol Fuchsin reagent	100 mL	TBC-OT-100
• TB Malachite Green reagent	100 mL	TBM-OT-100
• TB Decolorizer	100 mL	TBD-OT-100
• TB Decolorizer	100 mL	TBD-OT-100
Kit contains 4x250 mL:		
• TB Carbol Fuchsin reagent	250 mL	TBC-OT-250
• TB Malachite Green reagent	250 mL	TBM-OT-250
• TB Decolorizer	250 mL	TBD-OT-250
• TB Decolorizer	250 mL	TBD-OT-250
Kit contains 4x500 mL:		
• TB Carbol Fuchsin reagent	500 mL	TBC-OT-500
• TB Malachite Green reagent	500 mL	TBM-OT-500
• TB Decolorizer	500 mL	TBD-OT-500
• TB Decolorizer	500 mL	TBD-OT-500
