

TECHNICAL SHEET

S0679ST

ITEM: **BIOPSY PADS**
Ref. 0679

MANUFACTURER : KALTEK srl

INTENDED USE : biopsy foam pads for processing

REF	TYPE	DIMENSIONS
0679	For standard cassette	26 x 31 (± 1) mm
4879	For micro-cassette	15 x 18 (± 1) mm

FEATURES

Material : polyurethane foam / polyester (REGICOLOR VS)

Color : blue
Size : 26 x 30(± 1) mm
Thickness : 3 mm
Pores per cm² : 57÷70
Density Kg/m³ : 31±3
Compressive strength : 3,0 ± 1 k/Pa
Temperature tolerance : up to 180 °C(*)

(*) it is advisable to perform resistance tests before using this product at highest temperatures, in order to prevent the loss of chemical and physical characteristics.

SHELF LIFE: : 5 years

PACKAGING : 1.000 pcs./bag

WARNING

In vitro diagnostic medical device for professional use only; put on gloves during handling.
Store in a dry place at room temperature, keep away from heat and moisture.
Disposal after usage: the device is classified as dangerous waste.
