280180	Sleeve CT 38mm PET 66x30x0.5mm	18122023

Additional information

The product(s) have been produced according to the item specifications. The packaging of the product(s) has been done according to the packaging specification.

Quality: *Product(s) which are the subject to this certificate have been tested for compliance with internal documentation of Pont. This document provides the basis for the release of the consignment of products to sell. This does not release the buyer from the obligation to test the product(s) after delivery.*

Storage Conditions: *The delivered product(s) must be stored in covered warehouses, in original packaging, protected from temperature and sunlight before testing or using on the production line. Carefully transfer: material sensitive to contamination with loose particles (if applicable electrostatically attracting them).*
