

Easy Flype

NITINOL SELF EXPANDING STENT FOR SFA

Easy Flype is a dedicated self expanding stent with hybrid cell design maximizing flexibility and conformability in SFA.

- Proven bio and haemo-compatibility enabled by the Bio Inducer Surface coating, accelerating strut coverage, reducing thrombogenicity and sealing against heavy metal ions release

- Effective balance between flexibility (for optimal conformability) and radial force (for highly calcified vessels), available up to 150mm in length

- Superior track and high precision upon stent release provided by a unique single-hand delivery system

TECHNICAL DATA

PERIPHERAL STENT	
Stent diameters:	6 - 8 mm
Stent lengths:	20 - 150 mm
Stent material:	Nickel titanium alloy (nitinol)
Strut surface coating:	Bio Inducer Surface
6 tantalum radiopaque markers	
DEVICE SPECIFICATIONS	
Over The Wire (OTW)	
Introducer sheath compatibility:	6F
Guidewire compatibility:	0.035"
Usable Catheter Length - UCL:	85 & 135 cm
