

EES Circular Staplers

“I have better tissue management because of the adjustable staple height.”

Product Overview

EES Circular Staplers provide consistent staple formation due to adjustable staple height and controlled tissue compression. The device utilizes strict adherence to Halsted's principles.

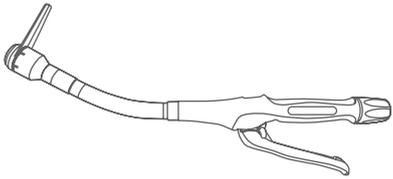

The EES Circular Stapler is a sterile, single patient use instrument that delivers two rows of staggered staples around a circular cut line. Applications of the device include gastrointestinal and thoracic surgery for end-to-end, end-to-side and side-to-side anastomosis.

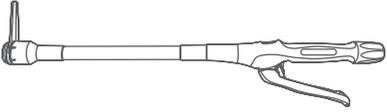

Feature	Benefit
Adjustable staple height and controlled tissue compression	Surgeon can control height of closed staple for better tissue management
Non-reflective, sealed shaft (ECS)	No instrument glare and no loss of pneumoperitoneum
5.5mm open staple leg length	Accommodates thick tissue with the longest staple length commercially available
Patented cutting washer	TRUE Audible and Tactile Feedback at the firing end of the stapler provides for a complete cut once the knife blade has come in full contact with the tissue Indicates the instrument has been fired successfully

PROXIMATE® ILS

Curved Intraluminal Staplers	Product Code	Number of Staples	EES Knife Dia. (mm)	Per Package
	CDH21 	16	12.4	3
	CDH25 	20	16.4	3
	CDH29 	24	20.4	3
	CDH33 	28	24.4	3
Staple: 0.28mm dia., 4.0mm crown, 5.5mm leg Closure: 1.0-2.5mm				

Straight Intraluminal Staplers	Product Code	Number of Staples	EES Knife Dia. (mm)	Per Package
	SDH21 	16	12.4	3
	SDH25 	20	16.4	3
	SDH29 	24	20.4	3
	SDH33 	28	24.4	3
Staple: 0.28mm dia., 4.0mm crown, 5.5mm leg Closure: 1.0-2.5mm				

ENDOPATH® ILS

Endoscopic Curved Intraluminal Staplers	Product Code	Number of Staples	EES Knife Dia. (mm)	Per Package
	ECS21 	16	12.4	3
	ECS25 	20	16.4	3
	ECS29 	24	20.4	3
	ECS33 	28	24.4	3
Staple: 0.28mm dia., 4.0mm crown, 5.5mm leg Closure: 1.0-2.5mm				

Miscellaneous Products For Intraluminal Circular Staplers	CSS	Circular Sizer Set for ILS. Includes (1) 25mm, (1) 29mm, (1) 33mm sizes.
	EH40	Purse-String Clamp, reusable.

*Data on file, study compared to USSC circular staplers.
 **<0.2mm negligible vs. competition, <2% difference in knife diameter vs. competition.
