# Premicath

Peripherally inserted central venous polyurethane catheter (1Fr/28G) for short and medium term venous access **in premature babies and neonates** for delivery of medication and parenteral nutrition.
- Introducer : breakaway needle, 24G short I.V. cannula, peelable cannula, no introducer
- Catheter markings every centimetre
- Fixation wings and integral extension tube to give comfortable fixation: length of extension tube (PUR) 8 cm (codes 1261.152/153/206/207/302/306/307 have no fixation wings)
- Premicath is supplied **with** or **without stylet**

Tray presentation containing:
- 1 PUR catheter (XRO)
- 1 introducer (except codes 1261.201/206/207)
- 1 measuring tape

(codes 1261.152/153/206/207/302/306/307 have no fixation wings but a pink connector where the non-pelable plastic cannula can be attached)

Quantity per box/case: 10/50
