

Aspiration pumps

The **Rocket Suction Pump** is a digital aspiration pump that provides smooth, low volume vacuum at pre-determined negative pressures, allowing simple, low turbulence oocyte recovery. It is designed with immediate vacuum response and cut-off, intuitive rotary control and blue LED vacuum display.

Rocket Aspiration Pump

Ref	Product
75020	Aspiration pump, Rocket

The **Craft™ Suction Pump** provides smooth low volume vacuum at pre-determined negative pressures, resulting in low turbulence oocyte recovery. The duo-vac model includes a high vacuum function for clearing clogged aspiration needles.

Craft Duo-Vac

75000	Aspiration pump, CRAFT single
75010	Aspiration pump, CRAFT Duo-Vac

Connection tubing

The **Aspiration pump tubing** is a tubing that works as an extension from the aspiration needle to the aspiration pump. Equipped with male/female luer connections.

The **Rocket filter connection set** is a connection tubing with a hydrophobic filter that protects the aspiration pump from being contaminated.
