42351	100x15 mm petri dish - Nunc 263991	20/320		

* - HSA and endotoxin tested.
TR = Treated surface

5 pirkimo dalis

EasyGrip with label area

The round **Oosafe dishes** are designed with two "easy-grips" on the side of the dish in order to ensure a safer handling of the dishes. The "easy-grips" are designed so that a label with patient identification can be placed on the side of the dish in-between the two "grips". The "Easy Grip" is indicated with an "L" in the tables.
