

## EF Medica

**EF Medica srl**

EFmedica manufactured TENS electrodes are suitable to use with many TENS devices.

Electrodes becomes trasmitter between generator and patient skin.

Properties:

Flexible, easy to stick and remove

Adhesive

Various size and shape

Cable length 15 cm, DIN 42802 standart

4 electrodes per pack

### **66.119.01 - Disposable stimulation surface electrodes**

35x45mm disposable stimulation surface electrode with snap connection (1pack=4pieces) [\[Product Details...\]](#)

### **66.119.02 - Disposable stimulation surface electrodes**

45x50mm disposable stimulation surface electrode with snap connection (1pack=4pieces) [\[Product Details...\]](#)

### **66.119.07 - Disposable stimulation surface electrodes**

40x90mm disposable stimulation surface electrode with snap connection (1pack=4pieces) [\[Product Details...\]](#)

**66.119.08 - Disposable stimulation surface electrodes**

50x90mm disposable stimulation surface electrode with snap connection (1pack=4pieces) [\[Product Details...\]](#)

**66.119.11 - Disposable stimulation surface electrodes**

35x45mm disposable stimulation surface electrode with 2mm socket leadwire (1pack=4pieces) [\[Product Details...\]](#)

**66.119.12 - Disposable stimulation surface electrodes**

50x50mm disposable stimulation surface electrode with 2mm socket leadwire (1pack=4pieces) [\[Product Details...\]](#)

**66.119.15 - Disposable stimulation surface electrodes**

40x90mm disposable stimulation surface electrode with 2mm socket leadwire (1pack=4pieces) [\[Product Details...\]](#)

**66.119.16 - Disposable stimulation surface electrodes**

50x90mm disposable stimulation surface electrode with 2mm socket leadwire (1pack=4pieces) [\[Product Details...\]](#)

**66.119.25 - Disposable stimulation surface electrodes**

50x100mm disposable stimulation surface electrode with 2mm socket leadwire (1pack=4pieces) [\[Product Details...\]](#)

**66.119.26 - Disposable stimulation surface electrodes**

35x45mm disposable stimulation surface electrode with tab connection (1pack=4pieces) [\[Product Details...\]](#)

**66.119.27 - Disposable stimulation surface electrodes**

40x60mm disposable stimulation surface electrode with tab connection (1pack=4pieces) [\[Product Details...\]](#)

## 66.119.28 - Disposable stimulation surface electrodes

50x90mm disposable stimulation surface electrode with tab connection (1pack=4pieces) [\[Product Details...\]](#)
