

# EYE VISC™ PFS

HYDROXYPROPYL METHYLCELLULOSE OPHTHALMIC SOLUTION USP

CE  
0434

## Composition

Hydroxypropyl Methylcellulose USP.....2% w/v  
Sterile Isotonic base.....q.s

## Description:

EYE-VISC™ PFS is a sterile non-pyrogenic, viscoelastic preparation of a non-inflammatory, highly purified grade Hydroxypropyl methylcellulose 2% w/v dissolved in a physiological buffer at pH 6.0 - 7.8 for intra-ocular application during the anterior segment surgeries.

## Composition:

Each ml of EYE-VISC™ PFS contains 20 mg Hydroxypropyl methylcellulose USP in sterile isotonic vehicle.

## Characteristics:

Highly retentive, dispersive viscoelastic. Unique ability to offer good space maintenance and excellent tissue protection throughout the procedure.

Possesses a high dynamic viscoelasticity and coating ability. Characterized by a low molecular weight and low surface tension. Totally non antigenic and completely transparent. Does not require refrigeration.

## Indications:

For intra-ocular use only. EYE-VISC™ PFS is indicated whenever protection and lubrication on delicate cells and tissues are needed especially in ophthalmic procedures including : Anterior Segment Surgery Cataract Surgery and IOL implantation Corneal Transplantation & Glaucoma Surgery

## Contraindications:

Not known at present

## Warning and Precautions:

The cannula and syringe are for single intra-ocular use only. Check the integrity of the packaging before use to ensure the product has remained sterile.

The Intra-ocular pressure should be checked following operations and if significant increase is observed, appropriate therapy should be administered.

At the end of operations, the solution should be removed by irrigation / aspiration.

## Supply:

EYE-VISC™ PFS is packed and supplied as a sterile solution in 2ml pre-filled syringe with cannula.

## Warning:

To be sold by retail on the prescription of a Registered Medical Practitioner only.

- Store at room temperature. • Protect from light. - Contains no preservative. • Must not be reused & re-sterilized. • For intra-ocular use only • Single Use Only

## Dose:

As directed by the Physician
