

TURBOSONICS® ABS® MiniTip

Alcon®

a Novartis company

New product launches - Turbosonics® ABS® MiniTip

Objectives:

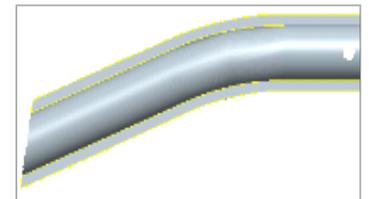

Launch TURBOSONICS® ABS MiniTip, the new tip enhancing proprietary Ozil® Torsional technology

Customer Need:

- Improved torsional cutting efficiency of OZil - HDPC
- Accommodate sub 2.0mm incision
- Improve thermal profile – Inferior risk of Prolonged occlusion

Product Features:

- 0,8 mm (OD) – Round tip with “Kelman” curved design
- The Round design reduces the risk of prolonged occlusion
- The shorter bevel OD slightly reduces holding
- “0.9mm” INTREPID® Ultrasleeve compatible

Shaft OD: .0315 (0.80mm)
ID: .0225 (0.57mm)
Bevel OD: .0315 (0.80 mm)
