SINGLE-DOSE CARTRIDGE SYSTEM

NEW!

MONOJECT™ DISPOSABLE DENTAL INJECTORS

The first all-in-one disposable injector solution designed to streamline patient procedures by eliminating setup and reprocessing steps. Fully operational syringe with the needle and drug cartridge preloaded. Ready-to-use injector with sterile fluid pathway. Fully disposable: no cleanup or disassembly required. Enhances patient experience: less intimidating. Reduces the potential of needle sticks: more efficient process. Individually packaged, single-patient use. One 5 qt. sharps container included with every box of injectors.

Articaine HCl 4% and Epinephrine 1:100,000 with Monoject™ Disposable Dental Injector (Articaine Hydrochloride and Epinephrine) Injector Solution
 Articaine..... 30 per Box

Specify:
 30 Ga. Short x 3/4" (112-7134)
 27 Ga. Long x 1 1/4" (112-7133)

ANESTHETIC BUFFERING

NEW!

Anutra Local Anesthetic Buffering Delivery System
 Anutra Medical

Leveraging the science of buffering increases the predictability and speed at which a patient can get numb. This, in turn, creates a better patient experience and increases the efficiency of the practitioner. Through buffering, the doctor can remain chairside to get most patients profoundly numb in as little as 2 minutes. The closed mixing system offers extreme patient safety in the delivery and buffering of local anesthetic. Via patented, filtered, uniflow, and sterile-path technology, the cassette is able to maintain the vial's sterility for up to 7 days.

Starter Special (127-3017)..... Ea.
 Contains: 2 Buffering Essentials (includes 2 of each: Anutra Cassettes[®], 50 mL vials of 2% lidocaine HCl with epinephrine [1:100,000] & 10 mL vials of 8.4% sodium bicarbonate), 50-5 mL Anutra Feedback Aspiration Syringes[®], 200 disposable needles (100 of each: 27 Ga. long & 30 Ga. short) & 1 Anutra dispenser.

Platinum Refill..... Ea.
 Specify:
 30 Ga. Needle-Short (127-3016)
 27 Ga. Needle-Long (127-3015)

Contains: 4 Buffering Essentials (includes 4 of each: Anutra Cassettes[®], 50 mL vials of 2% lidocaine HCl with epinephrine [1:100,000] & 10 mL vials of 8.4% sodium bicarbonate), 100-5 mL Anutra Feedback Aspiration Syringes[®] & 100 needles.

Feedback Aspiration Syringes-5 mL (127-3565)..... 50 per Box

NASAL SPRAY

NEW!

Kovanaze™ (tetracaine HCl and oxymetazoline HCl) Nasal Spray
 St. Renatus, LLC

A dental anesthetic administered via nasal spray without using a needle. Indicated for regional anesthesia when performing a restorative procedure on teeth 4-13 and A-J in adults and children who weigh 88 Lb. (40 kg.) or more. For full prescribing and important safety information, visit www.kovanaze.com. Approximately 15 patient uses per box.
 (126-8765)... 30 Sprayers per Box

RETRACTORS

HENRY SCHEIN®

CHEEK RETRACTORS

All styles provide complete retraction of lips and cheeks, giving the operator full view of anterior and posterior teeth. Entire working field is kept free from moisture.

INTRAORAL
Break-resistant clear plastic, very helpful for intraoral photography. Tongue depressor keeps bonding field dry. 3 sizes for proper fit. Autoclavable up to 270°F or 132°C

Intraoral Ea.

Specify:
Small (106-6911) Large (106-3154)
Medium (106-6823)

EXTRAORAL
For simultaneous premolar to premolar bonding in both arches. Hands-free, 1-piece design.

Extraoral..... 2 per Pkg.

Specify:
Child (106-5118) Adult (106-3457)

WIRE STYLE
Wire can be adjusted for maximum patient comfort. Fits child to adult.
(106-2669)..... Ea.

PLASTIC
Maximum retraction when you control the force.

Double-Ended..... 2 per Pkg.

Specify:
Small 5¾" (106-7078) Large 6½" (106-7079)

STAINLESS STEEL
Glare-free brushed metal. Fully autoclavable.

Air
COLLECTION

**Air Instruments
Curettes & Scalers**

The Air Collection has a unique and exclusive handle design that makes each instrument as light as air, with an average weight of 12 Gm. Handles are made from stainless 304 steel; welded tips are 420 steel. Instruments can be cleaned in a thermodisinfector and sterilized in an autoclave. Product range exists of single- and double-ended instruments for operator and periodontal procedures.

MATRIX MATERIALS

MAYLAR MATRIX (Cont'd)

Mylar® Matrix Material
JR Rand
 Dispensing Roll—0.002 Ga.
 (100-3632).....45 Ft.

Mylar® Matrix Strips
Palmero
 Mylar® polyester film used for composite restorations. Precut curved strips measure 3/8" x 4".
 (134-3725).....1000 per Pkg.

ProxyPal®
Directa Dental
 Preshaped curvature matrix to assist with incisal fillings. Indications for use: Class IV, large Class III, and closure of diastema. Cervical edge prevents moisture from surrounding tissue that interferes with the cavity and stabilizes the matrix during insertion of filling material.
 (201-0706).....36 per Pkg.

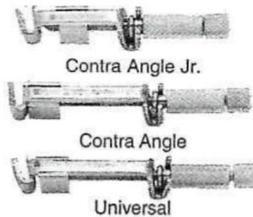

Stop Strips
Premier Dental
 Unique, transparent, anterior matrix band featuring an integrated stopper at one end. Turns a three-handed procedure into a two-handed one.
 Assorted Pkg.
 (378-9684).....150 per Box
 Contains: 75-8mm & 75-10mm.
 Refill Pkg..... 100 per Box
 Specify:
 Straight-8mm (378-3997)
 Straight-10mm (378-7529)

Vari-Strip™
Garrison
Dental Solutions
 Contoured anterior matrix strips that vary in height (6mm to 10mm per strip) and provide the optimal curvature and band height for virtually every anterior restoration. Their blue tint provides contrast between matrix and tooth structure without compromising composite polymerization. 0.0020" gauge.
 (300-0140).....100 per Pkg.

Composi-Tight® Gold™
Sectional Matrix System
Garrison Dental Solutions

Easy-to-use system that ensures consistently superior contacts on posterior composite restorations. The gold rings have been preset with a tension in the resting position; their thickness provides better retention in the mouth, and they have a better ability to both stack rings over one another for multiple-tooth restorations and adapt alongside a wedge better than rectangular rings.

Complete Kit
(300-0061).....Ea.
 Contains: 250 assorted Gold™ matrix bands, 6 assorted Gold™ G-Rings® & 1 pair of ring tongs.

DISPOSABLES

SHARPS DISPOSAL

SHARPS

CONTAINERS

Sharps containers are puncture-resistant, leak-resistant, and translucent for easy viewing. Ideal for disposal of needles, needles with wings, vacutainers, lancets, and blades (scalpels and scalpels). Counterbalanced lids designed to prevent infection/contamination by limiting access to container contents and facilitating one-handed operation. Constructed of puncture-resistant polypropylene. Safe to autoclave and meets or exceeds FDA standards, including OSHA and EPA requirements, for local biohazard waste-disposal services.

- (987-7151)..... Ea.
- (987-7150)..... Ea.

SHARPS CONTAINER WITH ROTARY LID

Rotating lid allows for maximum storage and safe disposal of larger sharps. High-impact polypropylene material. Puncture- and leak-resistant. Lids locks for final disposal.

- (987-0213).....Ea.
- (987-0212).....Ea.

Sharps Collector

One-step system eliminates recapping. Rigid, puncture-resistant polypropylene container. May be autoclaved and compacted or incinerated.

- Tray Size—1.5 Qt. (987-5812)..... Ea. 36@
- Small—3.3 Qt. (987-5212)..... Ea. 24@
- Medium—6.9 Qt. (987-5824)..... Ea. 12@
- Large—8.2 Qt. (987-6359)..... Ea. 12@
- X-Large—19.7 Qt. (987-4878)..... Ea.

Nestable Sharps Containers BD

Nestable for efficient storage. Tapered neck and one-way safety valve to prevent tampering and needle "bounce-back." Needle removal port for smooth, one-handed disposal.

- 14 Qt. (987-3711)..... Ea. 20@
- 24 Qt. (987-4979)..... Ea. 20@

Next Generation Patient Room Sharps Containers BD

With counterbalanced doors to provide maximum protection. Ergonomically designed to blend with room decor. Nestable for efficient storage. Horizontal entry.

- 5.4 Qt. (987-2990)..... Ea. 20@
- 2 Gal. (987-2599)..... Ea. 10@

Wallmate™ Patient Room Sharps Collector System BD

Offers everything needed to set up patient exam rooms for safe point-of-use disposal of needles, syringes, and other contaminated sharps.

- 5.4 Qt.—Pearl (465-4219)..... Ea.

Sharpstainers® Cardinal Health

Red, autoclavable, puncture resistant. Tamper-proof locking cap. One-way safety insert.

- Small—4.7 Qt. (10"W x 6"D x 7¼"H) (153-4169)..... Ea.
- Medium—6.2 Qt. (9½"H x 10"W x 6"D) (153-2566)..... Ea.
- Large—10 Qt. (12"H x 10"W x 6"D) (153-0322)..... Ea.
- X-Large—23 Qt. (16½"H x 12"W x 8½"D) (153-3634)..... Ea.

Sharps Containers with Needle Remover Cardinal Health

Constructed of thermal-molded polypropylene. Puncture resistant and autoclavable. Designed to significantly reduce the risk of needle sticks when removing needles from cartridges.

- 3½" x 3½" x 5" (0.7 Qt. capacity) Small (153-3569)..... Ea.
- 3½" x 3½" x 10" (1.7 Qt. capacity) Large (153-3888)..... Ea. 20@

Monoject® Sharps Containers Covidien

Autoclavable, translucent, red plastic containers with window for viewing fill levels. Chimney-type opening with handy needle notches permits quick, easy removal of needles from tube holders and reusable syringes. Snap-on security lid.

- Small—Approximately 4 Qt. (194-8598)..... Ea. 40 (Case)@
- Medium—Approximately 8 Qt. (194-9248)..... Ea. 20 (Case)@
- Large—Approximately 14 Qt. (194-9343)..... Ea. 10 (Case)@

General Purpose Nestable container features clear locking tops with horizontal load openings. Red.

- 2 Gal. (890-9541)..... Ea.

Multipurpose Sharps Containers Covidien

Adjustable openings accommodate a wide range of sharps waste. Built-in stepped needle unwinder ports. Snap-on lids close between uses and lock for final disposal. Nestable to save valuable storage space. Adjustable rotor disposal opening.

- 1 Qt. (666-6828)..... Ea. 20 (Case)@
