

Laryngoscopes

*Propper Laryngoscopes
are designed for
Longevity, Ease-of-Use and Infection Control!*

The Laryngoscope System is

- **Versatile** : We offer 3 handle sizes available with two light sources and over 15 blade varieties.
- **Easy To Sterilize** : Handles feature removable inner compartments allowing hassle free cleaning and sterilization. Our blades are designed with integrated fiber optic bundles and select quality stainless steel eliminates crevices and prevents fluid entrapment.
- **Standardized** : All Propper Blades and Handles are Green System compliant.

Laryngoscope Handles

- Standard Battery Sizes
- Xenon or Superlume® LED bulbs
- Patented Ball and lock system and removable inner compartments prevent fluid entrapment allowing hassle free disinfection and sterilization.
- Sterilized Steam, EO, Steris®, Sterrad®

Superlume® LED

- Brightest output (400% brighter than Xenon-Halogen)
- High color temperature for increased visibility
- LED light source lasts 1,000x longer than a Halogen bulb
- LED's long lifetime will make frequent bulb replacements a thing of the past.

Propper Laryngoscope Blades

Propper Manufacturing blades feature an integrated, high performance fiber optic bundle. The large diameter fiberoptics combined with state of the art Superlume LED handles provides an unmatched visualization for laryngoscope users.

Propper Laryngoscope blades are made of select quality 304 Stainless Steel with Flawless pinhole free Nickel/Chrome plating. The patented epoxy sealed integrated fiberoptic channel is heat resistant to 392°F. This streamlined system minimizes fluid entrapment and enables sterilization in Steam, Sterris®, Sterrad® and Ethylene Oxide.

Propper blades feature a patented easy clip system and are Green System compliant

Fiber optic bundle guaranteed for FIVE years to never fall below 2,000 lux when used with Propper laryngoscope blades.

Propper Blade

Propper Flip-Tip®

Propper Flip-Tip® blade is a modified Macintosh blade, enhanced to improve visualization of the larynx.

Propper Flip-Tip® is an ideal choice for unpredictable environments such as emergency rooms and cases where it may be difficult to utilize traditional laryngoscopes.

Utilizing a Flip-Tip® blade may reduce the risk of breaking teeth and laryngeal tissue injury.
