

die:master ivory

Uncompromising handling,
durability and precision

Renfert

Now also available in Dentine color

- ▶ Dentine shade (A2/B2)
- ▶ For the maximum esthetical shade effect possible for full ceramic restorations
- ▶ The perfect layer thickness for lithium disilicate (10 µm)

die:master blue / red / silver / gold / gray / ivory

- ▶ Extremely steam-proof and scratch-resistant thanks to high density die spacer layer.
- ▶ Primer technology for maximum bond strength between hardener and varnish
- ▶ Die spacer will not puddle on the brush or die, yet it sticks well to line angles due to its perfectly adapted flowability

die:master duo – Hardener and primer in one

- ▶ Hardener function: Cross links the die stone structure for in-depth hardness and high edge-strength even on critical preparation margins

die:master thinner

- ▶ Can be dispensed accurately drop-by-drop for controlled regulation of the viscosity

Isolation with Picosep

- ▶ Picosep separates perfectly die stone from porcelain and wax

Description	Art. No.	Layer thickness
die:master blue	Art. Nr. 1956 0300	20 µm
die:master red	Art. Nr. 1956 0200	15 µm
die:master gold	Art. Nr. 1956 0500	13 µm
die:master silver	Art. Nr. 1956 0400	13 µm
die:master gray	Art. Nr. 1956 0100	20 µm
die:master ivory	Art. Nr. 1957 0200	10 µm
die:master duo	Art. Nr. 1956 0600	0 µm
die:master thinner	Art. Nr. 1956 0700	0 µm
Picosep	Art. Nr. 1552 0030	<1 µm
die:master Set blue	Art. Nr. 1956 0900	
die:master Set red	Art. Nr. 1956 0800	
die:master Set gold/silver	Art. Nr. 1956 1000	
die:master Set ivory	Art. Nr. 1957 1000	

Set extent of delivery: 1 x stand, 2 x die:master blue/red/ivory oder 1 x silver + 1 x gold, 1 x die:master thinner, 1 x die:master duo, 1 x Picosep, 1 x brush, 1 x instruction manual
