The DSLR advantage

Change your lens, change your view

Interchangeable lenses let you explore new perspectives, and look at familiar subjects from a different point of view.

Technology that's easy to use

The creative power of EOS in a DSLR that's so simple you'll be shooting great pictures from the moment you pick it up.

Do your memories justice

Enjoy photographing life's events - creating superb images and dynamic video that you'll love to show off, and look back on for years to come.

"The 1200D is portable enough for me to take everywhere, but gives me great quality pictures. I really feel like I'm making a photograph, not grabbing a snap."

Step up to DSLR image quality

For the times in your life that you'll want to look back on, the EOS 1200D delivers great quality images that you'll love for years to come.

"Being a DSLR, the 1200D lets me create shallow-focus images that have loads of impact. It's a great way to draw attention to my subject, placing it against a soft, blurred background."

Our journey begins

Images packed with detail

Shoot beautiful photos that are packed with rich detail and natural colours, and capture the mood of any occasion. Crop, rotate and reframe images without compromising on quality, and create large prints up to A2 in size – perfect for framing at home.

Shoot the world just as you see it

It's ambient light that makes a scene special, and the EOS 1200D captures every last drop of it. When shooting inside or in dim conditions, the camera boosts its sensitivity for sharp, shake-free results without using flash.

Learn as you shoot

Shooting with a DSLR doesn't have to be complicated. In addition to the EOS 1200D's built-in Feature Guide, which explains the camera's functions using plain and simple language, is EOS Companion - an app that explains the basics of photography, and how to get started with your new EOS camera.

Use the EOS Companion App to explore the features and functions of the camera, discover new tips and tricks, and learn how to deal with tricky photographic situations.

Get the EOS Companion app which helps you get started and learn to take great photos

"When I see a picture I like, I can just pick up the 1200D and grab the shot as I see it. There's no fiddling or adjusting with settings to get in the way."

Easy to use

Great-looking photography has never been so easy. The EOS 1200D is designed from the ground up to be quick, simple and enjoyable to use.

A camera you'll love to use

Capture those special moments as they happen, with precision timing. A bright optical viewfinder sees through the camera's lens, showing the world as it really is.

The ideal settings every time

Compose a photo with the EOS 1200D and Scene Intelligent Auto will ensure great results with a minimum of fuss. The right combination of settings is chosen automatically for the subject being photographed, leaving you to concentrate on being creative.

Technology that works for you

Advanced features and state-of-the-art technology in a camera that's easy and enjoyable to use - the perfect recipe for great looking photography.

"When I want to capture action I can put the 1200D into continuous mode, shoot at 3 frames per second and choose the best shot to keep!"

Getting creative

When you want more input, the EOS 1200D offers plenty of opportunity for extra creative control. Start by experimenting with one of the EOS 1200D's subject-based modes each one tailor-made for a different theme.

"I can pick just one of the 1200D's focus points, which lets me be really specific about where I focus. Or I can let the camera decide which one to use, so I can concentrate on what happening in front of me."

EOS Movies

Shoot great-looking movies with the same camera you use for photos. Capture the world around you in glorious Full HD video.

"It's as easy to shoot movies with the 1200D as it is to shoot photos. Just select movie mode on the camera's mode dial and press the start/stop button to begin recording the sights and sounds around you."

Your next steps

The EOS 1200D is part of the EOS System – a system of cameras, lenses and accessories trusted the world over by amateur and professional photographers alike.

When you are ready to take your next steps in photography you'll find lenses that can bring distant objects closer, let you get more of a scene in the frame, and give your portraits extra impact.

Get more in

EF-S 10-22mm f/3.5-4.5 USM

A wide-angle zoom lens that gives broader views of landscapes

Get impact

EF 50mm f/1.8 II and EF 40mm f/2.8 STM

Compact lenses that blur the background of portraits, making the subject stand out.
