Bovezzo, 27/08/2014

Company EFFEBI S.P.A. (located in Bovezzo, Brescia 25073, via Giuseppe Verdi 68, Italy) confirms that TOF-LINK threaded fittings comply with Iso 228/1, with the exception of Figure 282 whose threads comply with UNI ISO7/1.

The raw materials are bought by Italian manufacturers and comply with the most recent European rules restricting the lead quantity to be used.

All the fittings are made in Italy.

The TOF-LINK series is made of brass:

- BAR ST UNIEN 12165 CW617N M RND A LEAD MAX 2,2 for articles made with hot-pressing.
- BAR ST UNIEN 12165 CW617N M B LEAD MAX 2,2 for articles made with automatic lather for bar.

Lead Max. 2.2 is the maximum content of lead.

Temperature range is from 5° to 85°, pressure rate PN10

Best regards
