Description

Filtered Pipette Tips, Volume:100ul , Style: Box , Package:96

1. RSBM Filtered pipette tips are suitable for most pipette brands, including Rainin, Gilson, Eppendorf, Sartorius (BioHit), DLAB and Axygen pipettes.
2. Polypropylene, Non-pyrogenic, DNase free, RNase free.
3. RSBM Filtered Pipette Tips can prevent the sample from entering the pipette, and can also prevent the impurities in the pipette from contaminating the sample. Especially suitable for PCR experiments and radioactive, bio-toxic, corrosive and volatile samples!
